

CBT NEWSLETTER 2017

Center of Excellence for Biopharmaceutical Technology (CBT) had organized a three days training program from 6th- 8th December 2017 in collaboration with Biotechnology Industrial Research Assistant Council (BIRAC). The event was sponsored by Agilent Technologies ,Pall Lifesciences , GE Healthcare, Sartorius Stedim, Asahi KASEI and Thermo Fisher scientific. The purpose of the event was to bring together leaders from across the world to share the best practices and cutting edge technologies on a diverse set of topics. Ten short courses in three days were successfully run at this event:

- **Qbd Implementation for Upstream Processing: Scale Up & Process Control**
- **Regulatory Submission for Drug Approval in the US**
- **Analytical Characterization of Biosimilars: Concepts & Case Studies**
- **Electron Microscopy for Analytical Characterization of Biotherapeutics**
- **Multivariate Data Analysis for Bioprocessing Data: Concepts & Case Studies**
- **Hands on Course in Downstream Processing**
- **Design of Experiments**
- **Viral Safety for Processing of Biopharmaceuticals**
- **Surface Plasmon Resonance Technology: Theory & Practice**

CBT had invited eminent experts from academia and industry around the world to present at this event. A total of 40 presenters were involved in teaching of the courses of which 12 were from industry ,16 were from academic institutions and 12 from abroad. The feedback from the courses is extremely encouraging and highlights the need for such an event. The event attracted more than 200 participants from India & abroad from a variety of industries and public institutions.

AFFILIATIONS

Industry

- Zeta Biopharma, Austria
- Asahi KASEI, Japan
- HiMedia Laboratories, Mumbai
- Embio Limited, Raigad
- Anthem Biosciences, Bangalore
- Zydus Cadila , Ahemdabad
- USV Private Limited,Mumbai
- TCS, Noida & Pune
- Intas Pharmaceuticals , Ahemdabad
- Applied Materials , Bangalore
- Syngene International, Bangalore
- Wockhardt Limited, Aurangabad
- Pfzier , Chennai
- Nilson Nishotech , Mumbai
- Appasamy Ocular Device (Ltd.) , Chennai
- Praj Industries, Pune
- Shantha Biotech, Hyderabad
- Stelis Biopharma Pvt. Limited, Bangalore
- Gennova Biopharmaceuticals, Pune
- Mankind Pharma, Delhi
- Reliance Lifesciences, Mumbai
- Indian Oil Corporation, Delhi
- Bharat Petroleum, Greater Noida
- Seagull BioSolutions Pvt Ltd, Pune
- Sarvoshadhi Biotech Pvt. Ltd, Pune
- Apta Bharat, Delhi
- Serum Institute of India, Limited, Pune

Academia

- University of Standford , USA
- Amity University, Noida
- BITS MERSA, Ranchi
- National Institute of Biologicals, Noida
- Jawahar Lal Nehru University, Delhi
- International AIDS Vaccine Initiative, Delhi

Very broad topics from analytical to virus filtration covered across the 3 day event. Good accessible and spacious venue meant for exhibitions. Arrangement for presentations line up is appreciated. Please keep in touch for any activity of interest going forward!

-Mr. Zarir Ashraf Chowdhury , (Technical Marketing)
Asahi KASEI, Japan

The meeting seemed to be a success with good attendance. Quite a few industrial participants in the Pall session which was good to see. Excellent questions on viral clearance methodology for continuous processes. A lot of excitement from the crowd viewing the continuous lab equipment.

-Dr. Rick Morris, Senior Vice President (R & D) , Pall Corporation

Center of Excellence

Biopharmaceutical Technology

About Us

The Center of Excellence for Biopharmaceutical Technology (CBT) was established at IIT Delhi In 2015 by the Department of Biotechnology, Government of India, in recognition of the importance of Biotechnology for India, particularly that of producing affordable biotech therapeutics.

Vision

The mission of COE- CBT is to provide a network and linkage to establish and facilitate academic- industry collaborations and partnerships that will accelerate the discovery and development of new biopharmaceuticals and related processes.

Mission

The vision of CBT is to deliver innovation in biopharmaceutical technology to effectively address the challenges faced by the Indian biotech industries and thereby assist in the "Make in India" initiative by making India the global hub of manufacturing economical, safe and efficacious therapeutics.

ACTIVITIES

CBT wishes to collaborate with other industrial and academic partners to pursue the following:

- Technology development in all areas related to biopharmaceutical development.
- Partner with the Indian biotech industry in implementing technology solutions
- Offer training via short courses both in fundamentals as well as "practice" of biopharmaceutical development
- Collaborate with the Indian regulators (CDSCO) to ensure that the best practices are adopted by the manufacturers
- Examine and report on quality of Bio-therapeutics that are being sold in the Indian market
- Organize professional workshops where industry, academia, and regulatory stakeholders can meet and discuss on the various issues faced by the Indian biopharmaceutical industry to build Brand India.

UPCOMING EVENTS

Next CBT Course Series 2018 will be held from 12th-14th December 2018 at IIT Delhi. Planning has already begun and more details will be available on website cbt.iitd.ac.in

KEY AREAS

- Quality by design (QbD)
- Process analytical technology (PAT)
- Continuous processing
- Multivariate data analysis (MVDA)
- Computational fluid dynamics (CFD)
- High-throughput process development (HTPD)
- Adaptive control of bioreactors
- Aggregation of biotech therapeutics
- Development and commercialization of purification and analytical technologies
- Development, scale-up, technology transfer, validation, and monitoring of biotech processes
- Modeling of biotech unit operations
- Characterization of biosimilar products
- Modeling of biotech unit operations
- Scientific and regulatory issues around approval of biosimilars
